

## Clark Forklift Attachment

Clark Forklift Attachments - Currently, there are over 350,000 Clark lift trucks performing globally, and upwards of 250,000 in service in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, handles more than 120,000 individual components intended for 20 unique brands of forklifts and automated equipment. Your regional Clark Supplier is your total source for availability of all your components requirements offered by Clark Totalift.

Clark's exceptional Parts Distribution Facilities are conveniently stationed in Louisville, Kentucky, which serves both their consumers and sellers in North America, and Changwon, South Korea, which handles their Asian dealers and customers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Driven to supply the highest level of value and service to our customers, Clark remains on the leading edge when it comes to improving productivity and benefiting performance.

Worldwide, Clark has one of the most outstanding dealer support networks. With over 550 locations globally, seller representation in over 80 nations and 230 locations in North America, their high level of dedication to their customers predominates the material handling industry.

Clark proudly remains an progressive leader of the material handling industry, pioneering safety features such as the operator restraint system. This exceptional dedication to safety is at this time a customary feature on every forklift.

Clark has a continual objective to possess the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be globally certified with quality standard ISO 9001 in all of its manufacturing facilities. Furthermore, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any environmental limitations, thus placing them in a prevailing industry position.

Clark has selected the very economical and beneficial system of "Lean Manufacturing" for its assembly plants and application of resources. This system was developed to acknowledge the most successful method of production plant stewardship and ensuring maximum efficiency. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers communicate together to improve the effectiveness and brilliance of their products while minimizing expenses. The new value engineering agenda combines progressive product development and delivers superior client support and service within the industry.
