

Electrical Part for Forklifts

Forklift Electrical Parts - Lift trucks together with various lift trucks may have specific labels used in some hazardous locations. The mark denotes that this specific model of lift truck meets the minimum standards of ANSI/UL 553 used for electric lift trucks or ANSI/UL 558 utilized for internal combustion engine forklifts.

Applications for labeled lift trucks can be found in National Fire Protection Association NFPA 505 - Powered Industrial lift trucks including: Type Designations, Areas of Use, and Maintenance and Operation. Check with your local insurance provider and Fire Marshall for further info about the approved uses of industrial powered lift trucks in your application.

If the specific lift truck satisfies the outlined standards, labels could be attached. A labeled forklift will show the type of designation put on the nameplate and would have a correctly corresponding label attached.
