

Clark Forklift Parts

Clark Forklift Parts - At present, there are no less than 350,000 Clark lift trucks performing globally, and upwards of 250,000 operating in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, handles more than 120,000 specialized parts fabricated for 20 unique models of forklifts and automated equipment. Your regional Clark Seller is your total source for availability of all your parts requirements supplied by Clark Totalift.

Clark has a phenomenal Parts Distribution team. The components warehouses are conveniently stationed in Changwon, South Korea and Louisville, Kentucky to guarantee exceptional service to both their buyers and their dealers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Driven to offer the highest level of value and service to our customers, Clark remains on the leading edge when it comes to improving productivity and benefiting performance.

Worldwide, Clark has one of the most outstanding supplier support networks. With over 550 locations worldwide, dealer representation in over 80 countries and 230 locations in North America, their high level of commitment to their clients predominates the materials handling market.

Clark proudly remains an innovative leader of the industrial equipment industry, pioneering safety features such as the worker restraint system. This exceptional dedication to safety is now a customary feature on every lift truck.

Clark's recurrent goal to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift maker across the globe to be certified with the globally approved quality standard ISO 9001 for each and every one of their manufacturing facilities. Furthermore, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any number of environmental limitations, thus placing them in a dominant industry position.

Clark has selected the system of "Lean Manufacturing" at all of its assembly plants for the reason that this technique is extremely economical and allows for minimal use of resources. Established to ensure maximum efficiency, this system is intended to find and acknowledge the most efficient methods for manufacturing facility stewardship. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers communicate together to enhance the effectiveness and excellence of their merchandise while minimizing costs. The contemporary value engineering program combines modern product growth and delivers superior consumer support and service within the industry.
