

Meritor Parts

Meritor Parts - The Meritor Business is a leading global supplier founded upon 100 years of custom of quality and service. Meritor concentrates on integrated systems along with a range of modules and components to the original equipment manufacturers and aftermarket equipment within the transportation and industrial trades.

Meritor prides itself in the company's unique energy and thinks that this particular energy contributes to their competitive advantage in the global operations. The company values their clients and wants to guarantee their success while anticipating their various needs. Meritor begins with a philosophy that values diversity of individuals and their broad thought processes. Operating in 19 countries and employing over eleven thousand two hundred people, Meritor encourages innovation and collaboration amongst a team of knowledgeable experts.

Meritor strongly believes in only hiring future focused employees. These top-caliber people can quickly adapt to changing environments and freely exhibit the level of commitment and performance needed in order to attain results for the competitive market environment. The company empowers their teams to make sound business decisions in order to improve the overall success of the company. In return, Meritor offers their staff different chances for professional and personal growth.

Their Advanced Engineering team is at the forefront of parts and system engineering that include axles, drivelines, suspension and braking systems designed for heavy duty and medium trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is developing. They launched a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives which represent the entire Asia Pacific region. This team is likewise responsible for supporting the requirements of their worldwide engineering workers.

The Quality team at Meritor is a customer-focused and dynamic group who is devoted to ensuring optimum development at their production plants and aftermarket distribution facilities which are located on 5 continents and in 19 nations.

The supplier development network is specifically situated so as to support new business growth. Regional teams are supported by global initiatives, quality systems and centralized specialties in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a data-driven, fact-based method to decision making within every aspect of the business. The DFSS or also referred to as Design for Six Sigma ensures product reliability within each region. The team is even included transactional Green Belts who use Six Sigma tools to business techniques and apply lean techniques.
